REMARKS/ARGUMENTS

Applicant hereby elects claims directed to Species I, that is claims 1-6, 14-18, 28 and 29, which are associated with Figure 1. Claims 25 to 27 are also elected as they are identified by the Examiner to be generic claims.

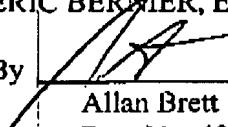

As indicated in the restriction requirement, if claims 25 to 27 are found to be allowed, Applicant will be entitled to consideration of additional species which depend from or otherwise require all the limitations of an allowable generic claim.

In view of the foregoing, early favorable consideration of this application is earnestly solicited.

Respectfully submitted,

ERIC BERNIER, ET AL
